1. Click here to find the databases

This short guide will show you how to carry out a simple search using the databases. The databases contain articles from thousands of journals.

If you have any trouble carrying out a search, or if your search is complicated then get in touch with the library staff at 01 2771605 / 01 2771512

You can also view the short video based on this helpsheet.

IDAAL

IDAAL is driven by a group of librarians specialising in the areas of Intellectual Disability and Mental Health. The aim of IDAAL is to provide up-to-date information which supports research, best practice and education across all our Services.

3. INCLUDE LIMITS

Limit your search by Date/ Journals only/ Language/

Scroll over these buttons to view article details or to add to your folder to view later.

The screenshot shows a search results page with a 'Refine Results' sidebar on the left. The sidebar includes options for 'Limit To' (Full Text, References Available, Peer Reviewed) and 'Source Types' (All Results, Journals (458), Academic Journals (458), Magazines (4), Dissertations (4), CEUs (3)). The main search results list five articles, each with a 'Full Text' button. A red box highlights the 'Refine Results' sidebar, and a red arrow points to the 'Full Text' button of the first search result.

You can limit your search to articles that you can view in full text format, but be careful, as you could be excluding relevant articles.

4. GET THE FULL TEXT

Linked Full Text PDF Full Text

Either of these above options will bring you to the full text of the article
This, below, will try to find the full text – may or may not be successful/
